

## HOW TO USE DIMENSION 1 & 2

Once your candidate has filled out the Dimension 1 & 2 questionnaire, **you plot the B answers on the grid.**

Mark the hash marks on the horizontal and vertical lines on the grid with the following numbers starting from left to right and top to bottom:

1,4, 8, 12 & 15

Plot Dimension 1 answers horizontally and Dimension 2 answers vertically. Then find the quadrant where they intersect in and that is the candidate's personality style.

Top left box=Analytical

Top right= Driver

Bottom Left= Amiable

Bottom left= Expressive
